

International Conference Standards of Excellence in Disability Services

United Arab Emirates, Sharjah, November 2026

Official Conference Description:

About the Conference:

The *International Conference on Standards of Excellence in Disability Services* is a specialized research platform dedicated to evaluating the performance of countries in delivering services to persons with disabilities. This evaluation is based on precise and comprehensive indicators and standards that cover various aspects of life.

The conference brings together experts, researchers, and policymakers from around the world to exchange experiences and develop unified assessment mechanisms that contribute to real empowerment and full inclusion of persons with disabilities in their communities.

Key Evaluation Axes and Standards of the Conference:

1. **Health Standard:**
Assesses accessibility to comprehensive healthcare services, medical insurance, and specialized care programs for persons with disabilities.
2. **Education Standard:**
Measures the availability of inclusive education, integration of students with disabilities into educational institutions, and support for accessible learning.
3. **Environmental Accessibility Standard:**
Evaluates the adaptation of public and private facilities (buildings, roads, transportation, etc.) to meet the needs of persons with disabilities.
4. **Employment Standard:**
Examines public and private sector policies for employing persons with disabilities, the inclusiveness of work environments, and the assurance of equal opportunities.
5. **Legislation and Legal Framework Standard:**
Reviews the existence and enforcement of laws safeguarding the rights of persons with disabilities, and the effectiveness of oversight mechanisms.
6. **Early Intervention Standard:**
Addresses policies and programs aimed at early detection and therapeutic or educational intervention during childhood.
7. **Emergency Preparedness Standard:**
Measures the readiness of national plans to protect persons with disabilities during disasters and crises, including access to information, shelter, and support services.
8. **Sport and Physical Activity Standard:**
Assesses the availability and promotion of opportunities for persons with disabilities to participate in sports and recreational activities. This includes supportive policies, accessible facilities, inclusive training programs, and participation in national and international sporting events. The standard also evaluates equality of opportunity, the role of sports in fostering social inclusion, and the contribution of physical activity to the physical and mental well-being of persons with disabilities.

Conference Objectives:

- Develop an international system for assessing the quality of services provided to persons with disabilities.
- Enable countries to evaluate their performance and enhance their strategies.
- Promote international cooperation in the fields of empowerment and rehabilitation.
- Strengthen the voice of persons with disabilities in public policy development.

International Conference on Standards of Excellence in Disability Services

Executive Summary

The *International Conference on Standards of Excellence in Disability Services* is a global research and policy platform that aims to assess the quality and effectiveness of services provided to persons with disabilities across countries. The conference brings together experts, researchers, and decision-makers to promote knowledge exchange and build unified evaluation frameworks.

Key focus areas include:

- **Health Services Accessibility**
- **Inclusive Education**
- **Environmental Accessibility**
- **Employment and Equal Opportunity**
- **Legislation and Rights Protection**
- **Early Intervention Programs**
- **Emergency Preparedness for Persons with Disabilities**

Conference Goals:

- Establish international quality measurement standards.
- Support countries in improving disability service strategies.
- Foster international cooperation in disability empowerment.
- Promote inclusive policymaking and advocacy.

This conference serves as a catalyst for advancing comprehensive, equitable, and sustainable services for persons with disabilities worldwide.
