

## Index

# Services provided to persons with disabilities

## **Index of services provided to persons with disabilities**

**It is important for people with disabilities to have equal access to services and opportunities. In many countries, there are laws and regulations in place to ensure that people with disabilities enjoy the same rights and opportunities as people without disabilities. This can include providing special services or accommodations to ensure that persons with disabilities have the same level of access and participation as others. These services and accommodations can vary depending on the specific needs of the individual and the context in which they provided. It is important for organizations and institutions to be aware of and comply with these laws and regulations to ensure that persons with disabilities not excluded or disadvantaged.**

**In order to assist countries in identifying their position in terms of services provided to persons with disabilities around the world, the *World Disability Union* has developed an index of services provided to people with disabilities to make it easier for everyone to see the best experiences in laws and services provided to persons with disabilities.**

**This indicator is consistent with the articles of the Convention on the Rights of Persons with Disabilities, in terms of educational, health, and employment rights, social protection, a qualifying environment, and other rights stipulated in the Convention. This indicator was divided into (19) criteria, so that each axis measures the quality of life of people with disabilities. In the country, as follows.**
